SUMMARY

Junior developer transforming ideas into engaging, user-friendly digital experiences. Former medical student turned software developer, bringing a unique blend of analytical precision and creative problem-solving to every project. Adaptable, detail-oriented, and experienced in remote collaboration, I'm ready to create something remarkable together.

SKILLS

Front-End: JavaScript, React, Next.js   **Tool & DevOps:** Git, GitHub, npm, Postman

Back-End: C#, .NET Core, PHP, MySQL   **SoftSkills:** Remote Pair-Programming, Teamwork, Flexibility

EXPERIENCE

Hackathon

One Project One Week Hackathon   Apr 2025

- Secured **3rd place** in the **"1 Project 1 Week" Hackathon** (part of MyStories' Tech4All IT Event), for the rapid development and pitching of **DevLeague**, a platform designed to track hackathon participation, ranks, and team details.
- Functioned as the Frontend Developer & Pitcher, designing the responsive user interface and integrating a unique point distribution system to successfully gamify developer engagement within the 1-week timeline.

NCC Education (KMD)

Level 4 & 5 Diploma In Computing   Jul 2022 - Aug 2025

- Gained foundational knowledge in computer systems, databases, front-end web development, and object-oriented programming while building practical skills in C#, JavaScript, HTML, and CSS.
- Agile development, back-end web development with PHP, and mobile app development using Kotlin.

MICROVERSE   May 2023 - Nov 2023

- Developed dynamic web applications using JavaScript and React/Redux, implementing state management, reusable components, and API integration while optimizing performance and ensuring smooth UX.
- Collaborated with international developers through pair programming and agile workflows, utilizing Git Flow for version control and conducting regular code reviews to deliver high-quality projects.

EDUCATION

NCC Education (KMD)

Level 4 & 5 Diploma In Computing   Jul 2022 - Aug 2025

- Gained a strong foundation in computer systems, databases, front-end web development, and object-oriented programming while developing essential problem-solving and analytical skills for IT solutions.
- Advanced knowledge in network security, mobile app development, agile methodologies, and back-end web development, with hands-on experience through projects and professional IT practices.

MICROVERSE   May 2023 - Nov 2023

Remote Full-Stack Web Development Program

- Collaborated with international developers for over 5 months through remote pair programming, utilizing GitHub and Git Flow to build 10+ projects with JavaScript and React/Redux, enhancing teamwork, version control, and development skills, and earned certifications upon completion.

University of Medicine-1 (Yangon)   Dec 2015 - March 2020

- Developed strong analytical and problem-solving skills and the ability to learn complex concepts under pressure.
